**[TORO COMMERCIAL MOWER NEW!]**

## 22178TE **New!**

6.0 hp Kawasaki FJ180V engine, Self Propelled, Blade Brake Clutch (BBC).

The gross horsepower of this engine was laboratory rated by the engine manufacturer in accordance with SAE J1940. As configured to meet safety, emission, and operating requirements, the actual engine horsepower on this class of mower will be significantly lower.

Powerful 6 hp Kawasaki® FJ180V commercial engine  
Three-speed RWD transmission  
Blade brake clutch disengages blades while transmission remains functional  
6 mm (1/4") thick, die-cast aluminum deck  
3.78 liters (1 gallon) fuel tank  
**Industry's largest crankshaft**  
Steel wheels with long-lasting radial-style rubber tires

6.0 hp Engine	Kawasaki® FJ180V Commercial
Start	Recoil
Ground Speed	Self Propelled - 3.2-6.8 kph (2.0-4.2 mph)
Transmission	3-speed rear wheel drive
Blade Brake Clutch (BBC)	Allows engine to run with blade stopped
Deck Construction	6mm (1/4") die cast aluminum
Crankshaft	25 mm w/steel protector
Lubrication	Forced lubrication
Blade Tip Speed	5,369+ m/min - (18,000+ ft/min)
Height of Cut	32mm to 82.5 in 13mm increments - (1-1/4" to 3-1/4" in 1/2" increments)
Wheels	Steel with sealed ball bearings
Tires	Radial-style, semi pneumatic rubber
Fuel Capacity	3.78 liters (1 gallon)
Bagger Capacity	Approx. 2 bushels

- **2-in-1 Recycler® Technology**  
Standard 2-in-1 Recycler mulching and rear bagging deck. Significantly reduce mowing time, up to 38%\*, with Recycler mulching technology. Fast emptying easy on-and-off 2.5 bushel bagger.
- **Die Cast Aluminum Deck**  
Withstand extreme commercial mowing demands with rugged 6 mm (1/4") die cast aluminum decks, the industry's thickest.
- **Crankshaft**  
Rugged 25 millimeter crankshaft (industry's largest) and steel crankshaft protector.
- **Blade Brake Clutch (BBC)**  
Eliminate downtime and extend rope life with innovative BBC design that stops the blade from spinning while the engine continues to run and the transmission continues to operate.
- **Steel Wheels**  
Low maintenance and highly durable steel wheels utilize sealed ball bearings and steel pivot arms.
- **Durable Rubber Tires**  
Long lasting radial-style, semi-pneumatic rubber tires.
- **3 Speed Self-Propelled**  
3-speed rear wheel drive transmission offers an array of ground speeds:  
1st gear = 3.2 kph (2.0 mph) - 2nd gear = 4.8 kph (3.0 mph) - 3rd gear = 6.8 kph (4.2 mph)
- **2-Year Engine Warranty**  
Powerful, reliable two-year engine warranty.
